

Mismanagement Notes June 28, 2009

1) Hash Cash: Current account (as of two weeks ago): \$1,427.42

2) Mismanagement:

- Will be held every last Sunday of the month at 6pm with pick up hash before that at 5pm.
- Will be combined with the hash-BBQ. BBQ start at 4pm, pick-up hash at 5pm from there; MM at 6pm there. Half Hash is offering his place. If we find somebody else who is willing to host the whole affair we will move the location around.

3) 'Get a Life Award':

- We will bring back this award for hashers that have a 'milestone' number of hashes (69, 100, 169,...).
- We will get 69-mugs for those who hit that milestone.
- Hash Cash, 58 and Accounting, will bring a list with updated numbers of hash attendance counts to the starts.
- Zammy might make ribbons with a cheap sort of a band and some sort of fabric inscription material for other milestones than 69.

4) New 'Officials':

- Hare Raiser: Neutered
- Hash Flash: Klitty Litter
- Hash Trash: Has-hid-dick
- Song Meister: Is it in Yet?
- Listserv Control Committee: Dr. Whacksalotte, Master Meat Finder, 2 Men, 1 Crust.

Thanks already to all!

5) Beer-Meister Crew:

Joystick Cowboy, our current beer-meister, will recruit three more members for the crew.

Thanks already to all!

6) Food Bank Hash:

One of the next hashes (date to be announced soon) will be free of charge if you bring the equivalent in food that will be donated to the food bank. (unanimously approved).

7) Pirate Hash:

Will be on Sept. 19 (international pirate day). Hare: Neutered. Some details to be discussed at next MM. (unanimously approved)

8) Aug. 8 will be a \$6 hash per request of the hares, Follows and Swallows and Can You Make My Wife Cum?. (unanimously approved)

The following issues were very lively discussed. They were all put on the discussion per request of

multiple hashers and democratically voted on.

The original discussion about the start keg evolved into a discussion of two topics: pre-lube and kegs in general (again this was not initiated by an individual but by group decision)

9) Pre-Lubing: It was decided that hash beer will not be made available for pre-lubing. Wanks who want to pre-lube of course can do so, but they have to bring their own alcohol. (vote: 13-9)

Main reasons for the decision:

- The beermeister commits an illegal act if he/she serves beer from his/her vehicle (even if someone grabs a beer from the vehicle without his knowledge).

The fine is somewhere around 300\$. And, yes we had somebody go to court for exactly this 'crime' before.

- The beermeister understandably did not want to take this risk.

- Even if we would have a beer permit for the start we are not allowed to drink in the parking lot but only in the grassy park area.

10) Kegs: It was decided that the hash will provide kegs only for special occasions. (vote: I forgot to write it down, but I think it was similar to the one about pre-lubing)

Main reasons against keg:

- The reasons mentioned above make it difficult to use the keg for the start.

- A keg attracts police much more.

- Keg might be flat, foamy, not be finished.....

For Keg:

- Easy to take as much as you want. (sorry, there was probably more for and against it but I can't remember)

11) Non-Traditional Hash Marks:

Hares shall only use traditional jHavelina hash marks. (vote: pretty much unanimous)

Main reason:

Non-traditional hash marks can make it hard-to-impossible to follow trail if someone misses the announcement about it at the start. Wanks tend not to pay attention, be late, distracted by some hot virgin or take a piss...

There used to be a page on our website that showed the traditional jHavelina hash marks. I can't find it right now. We will try to get it properly set up again.

If you need a refresher join the school at the next start.

Short side-note since it was brought to my attention by several wanks: Yes, you can put a sign into a decision point circle - H, T, E, number of leg at HdT, smiley face, JHHH, cross, puff of flour, NY Yankee's sign..)

All of these decisions shall stand until they are overturned.

Obviously 9) and 10) would require someone to take over beermeistering who is willing to take the legal risks - at which point we will have to decide who pays for possible fines.

I hope that even if you disagree with some of these decisions they don't take all the fun out of your hashing experience - I mean, really...? ;)

on - till next month - on
